Arrow Q-Series Cross-Reference Guide

Overview

The Arrow Q-Series is a versatile line of cylindrical locks compatible with multiple keyways. This guide provides cross-reference information for equivalent locks from Schlage, Corbin, and Sargent manufacturers.

Keyway Compatibility

Arrow Q-Series locks use standard keyways that are compatible with industry-standard keyway profiles. Ensure proper keyway selection during specification to maintain interchangeability across your building systems.

Arrow Model	Schlage Equivalent	Corbin Equivalent	Sargent Equivalent
Q1	ND Series	CXSH	SA Series
Q2	ND Series	CXSH	SA Series
Q3	D Series	CXMH	SG Series
Q4	D Series	CXMH	SG Series

Function Code Mapping

Function codes determine lock behavior (storeroom, passage, privacy, etc.). Reference the chart below for cross-functional equivalents.

Function Type	Arrow Code	Schlage Code	Corbin Code
Passage	01	01	01
Privacy	02	02	11
Storeroom	03	03	13
Classroom	04	04	14
