

Baldwin Finish Comparison Guide

Lifetime PVD Finish

Physical Vapor Deposition (PVD) applies multiple thin layers of protective coating through vacuum deposition. This process creates an extremely durable finish suitable for high-traffic locations and coastal environments.

Standard Finish

Traditional Baldwin finishes offer excellent aesthetic appeal with standard durability for interior applications. These finishes are less resistant to corrosion but provide the authentic Baldwin appearance at standard price points.

Finish Code	Description	Warranty	Indoor	Outdoor	Price Tier
US3	Polished Brass	1 Year	Yes	No	Standard
US10B	Satin Nickel	1 Year	Yes	Limited	Standard
US26D	Satin Chrome	5 Years	Yes	Yes	PVD
US32D	Oil Rubbed Bronze	5 Years	Yes	Yes	PVD

Warranty Coverage

Lifetime PVD finishes come with comprehensive 5-year finish warranties covering discoloration and corrosion under normal use. Standard finishes include 1-year manufacturer warranties against defects.
