Supra Lockbox Buying Guide

Supra Lockbox Comparison Guide

Supra offers three distinct lockbox solutions addressing different access control and security requirements in property management and real estate.

S5 Mechanical Lockbox

- **Features:** Mechanical 5-button combination, no batteries required, proven reliability
- **Best For:** Real estate showings, contractor access, low-frequency use environments
- **Security:** Combination changes restrict to authorized personnel only, no audit trail
- **Cost:** Most economical option, \$30-50 per unit

C3 Key Lock Lockbox

- **Features:** Master key cylinder controls access, traditional lock security
- **Best For:** Facilities wanting standardized key management, integration with existing key systems
- **Security:** Keys can be duplicated, higher risk of unauthorized reproduction
- **Cost:** Mid-range option, \$40-60 per unit

eKEY Electronic Lockbox

- **Features:** Smartphone app access via Bluetooth, temporary codes, audit trail of all access
- **Best For:** Property management companies, multi-unit facilities, high-frequency access
- **Security:** Individual codes per user, geolocation verification, immediate access revocation
- **Cost:** Premium option, \$150-250 per unit plus subscription (\$5-10/month)
