V-Line Safe Mounting Guide

V-Line Safe Mounting Options

V-Line safes accommodate multiple mounting positions for different deployment scenarios and accessibility requirements.

Mounting Positions

- **Closet Shelf (Top-Open):** Mount on upper shelf, keypad on top surface, accessible from above
- **Desk Drawer Mount:** Install in desk drawer using slide-out mounting brackets, easy access
- **Vehicle Under-Seat:** Secure under vehicle seat with cable attachment, rapid deployment
- **Wall Mount Brackets:** Permanent installation with hardened bolts, maximum security positioning

Anti-Theft Cable

- **Standard Cable:** 1/4" diameter steel cable rated 5000 lbs breaking strength
- **Installation:** Route cable through eyebolt on safe, around solid furniture or structural element
- **Locked Cable:** Keyed cable lock prevents removal without authorization
- **Rating:** Deters casual theft, not defeat-proof for determined adversary

Kydex Holster Models

Kydex molded holster versions carry Simplex lock on belt or in vehicle. Retention strap keeps holster secure during movement. Lightweight design suitable for law enforcement and security professionals.
